

## GIS Specialist

Next Tier Concepts, Inc. is actively looking for an experienced GIS Specialist to support several key projects with government and commercial clients. This position would be based in the Washington, DC area. The role will include working as a team with software engineers and geospatial data engineers to tackle challenging issues and improve existing processes. As a GIS specialist you should have an interest in maps and aptitude for organizing spatial information.

### Required Skills

- Demonstrated experience building geospatial products from common geo-applications (ESRI, Google Earth, etc)
- Proficient with Google Earth
- Clear understanding of geospatial concepts and terminology
- Strong understanding of cartography and best practices
- Experience working with spatial data and common geospatial file formats to include; Shapefile, KML, GeoTIFF and MrSID
- Experience in applying metadata standards to tag geospatial products
- Experience with geospatial data processing and transformation
- Familiar with Open Geospatial Consortium (OGC) formats
- Strong attention to detail to ensure products adhere to strict accuracy and quality specifications
- Ability to work with minimal guidance, prioritize work, and handle multiple tasks under tight deadlines
- Strong interpersonal skills and manage client relationships necessary (will be a primary customer interface)

### Experience

- A minimum of 5+ years years of experience with GIS product creation (maps, charts)
- Bachelors Degree in Geography (or related field with “geospatial focus”)
- Working knowledge of the Dept of Defense and Intelligence Community
- Excellent Communication skills (will be a primary customer interface)

### Requirements

Citizenship	US Citizen
Security Clearance	Clearable (TS desirable but not required)
Job Location	Vienna, VA; Reston, VA
Duration	Full Time
Start Date	Immediately
Travel	Limited

## How to Apply

Email your resume (including references and salary requirements) in MS Word or Adobe Acrobat format to [jobs@ntconcepts.com](mailto:jobs@ntconcepts.com).
